

Calvary League

Covid-19 Virus Phase I and II Plan

The number one concern for Calvary League is the safety of our players. This plan will give Calvary League a different look and feel that we believe will keep our players and their families safe during this time. We understand that this will make some aspects of coaching players more difficult but please remember that what we are asking is for the safety of your children, the team and those attending these games. We hope that in the future we will be able to go back to a friendly family atmosphere that so many families enjoy about Calvary League.

- Social Distancing:
 - **Parents and Spectators:** All Parents and spectators will not be allowed to sit in any permanent stands and must bring your own lawn chairs and sit along the outfield fences away from the players starting from an area 20 feet from the opening of the dugout. Families should be at least 6 feet from any other families. Children will not be allowed to roam or play in areas as they had before, we ask that you keep them in the area where your family placed your chairs. No one will be allowed to watch the game behind the backstop. Only 1 scorekeeper from each team will be allowed in this area.
 - **Before your game:** Do Not arrive early for games. We are asking everyone to remain in their cars until 15 minutes before your game. There will be no warm up in the common areas before the game and each team will be able to warm up on the field before the game.
 - **Restrooms:** There will be access to restrooms at the football stadium. With a limit of 4 people in each restroom at a time. Each restroom will be thoroughly cleaned each evening after games and will be sanitized several times during game days. Once you return from the restroom please return to your family area.
 - **Concession Stand:** We will have a concession stand with limited items. We ask that while waiting in line to remain 6 feet apart and do not congregate in this area. Once you have received your items, please do not stop to watch the games behind the backstop and return to your family area.
 - **Coaches, and scorekeepers:** Only coaches, assistant coaches, team helpers and players are allowed in the dugout. There is a limit of 3 coaches per team so no more than 3 adults should be in the dugout at a time. Coaches must keep a safe distance from players at all times. We will allow 1 scorekeeper from each team that will be allowed behind the backstop at the scorer's table. No one is allowed to approach this area except the designated scorekeepers.
 - **Umpires:** Umpires will be stationed behind the pitcher to call balls and strikes. Umpires will not be allowed to touch any of the players at any time. They will not be allowed to touch or pickup any equipment, if a piece of equipment is in the

area of play and might cause a safety problem, they can use their foot to kick the equipment out of the field of play.

- **Players:** We will have an extra bench for each dugout so that players can spread out and keep a distance of 6 feet between them. Parents are not allowed around this area for the safety of the players. Players will not be allowed to use equipment from another player. No sharing of bats, helmets or gloves unless the players belong to the same household. At the beginning of the game, we will have a prayer where the players will line up on their baseline spread out 6 feet apart, coaches and umpire will also keep a safe distance during this time. Pitchers and catchers must keep a safe distance from other players when possible. All players, coaches and umpire should maintain a 6 foot distance while on the playing field when possible.
- **End of Game:** Once the game is over both teams must clear from the dugout away from the field so preparations for the next game can begin. There will be no shaking hands or physical contact at the end of games. Players and coaches may make a gesture of good game by waving or some other way without physical contact. Please exit the park as soon as possible so there will be less congestion in the ballpark area.
- **Practices:** It is recommended that you follow all social distancing guidelines while practicing. No sharing of equipment should be allowed at practices.
- **Self-Health Evaluation:** PLEASE DO NOT COME TO THE BALLPARK IF YOU OR YOUR FAMILY IS FEELING SICK. Please use common sense when evaluating you and your family's health before coming to the ballpark.
 - **Temperature Check:** All players, coaches, parents and spectators need to take their own temperature at home before coming to the ballpark and if you have over 100 degree or higher temperature you should stay home.
 - **Symptoms:** If you have any symptoms of Covid-19 as described by the CDC please stay home. If you or any of your family exhibit any of these signs you may be asked to leave.
 - **Those at high risk of Covid-19:** Those that are at high risk should take all precautions as prescribed by the CDC.
- **Preventative measures:**
 - **Hand Sanitizer:** We will provide hand sanitizer at the concession stand.
 - **Do not gather together in common areas:** Areas such as the concession stand, or the pavilion area are off limits to congregating. Please do not gather in these areas.
 - **Trash:** Please help us keep our ballpark clean and safe. Make sure you throw all trash in receptacles located all throughout the complex
 - **Disinfectant:** We will spray disinfectant in the dugouts after each game where players sit.
